

Empowering Innovators to Scale Impactful Solutions Across the NHS

Mindy Simon
Co-Director

What is the NHS Innovation Accelerator?

Supporting innovation to scale across the NHS

The NIA sits at the intersection between the NHS and the innovation ecosystem. It is an **enabler of innovation** that makes a meaningful difference across health and social care.

Funded by NHS England's Accelerated Access Collaborative (AAC), we provide intensive, tailored support to proven innovative healthcare solutions that are making a difference across health and social care.

NHS Innovation Accelerator in numbers

3,478

NHS sites using NIA innovations

1,208+

New roles created

248+

Awards won by NIA Fellows

**£226
Million+**

Raised in external funding to
support better patient outcomes

**8.5
Million+**

Patients impacted by
NIA Fellows solutions

**£87
Million+**

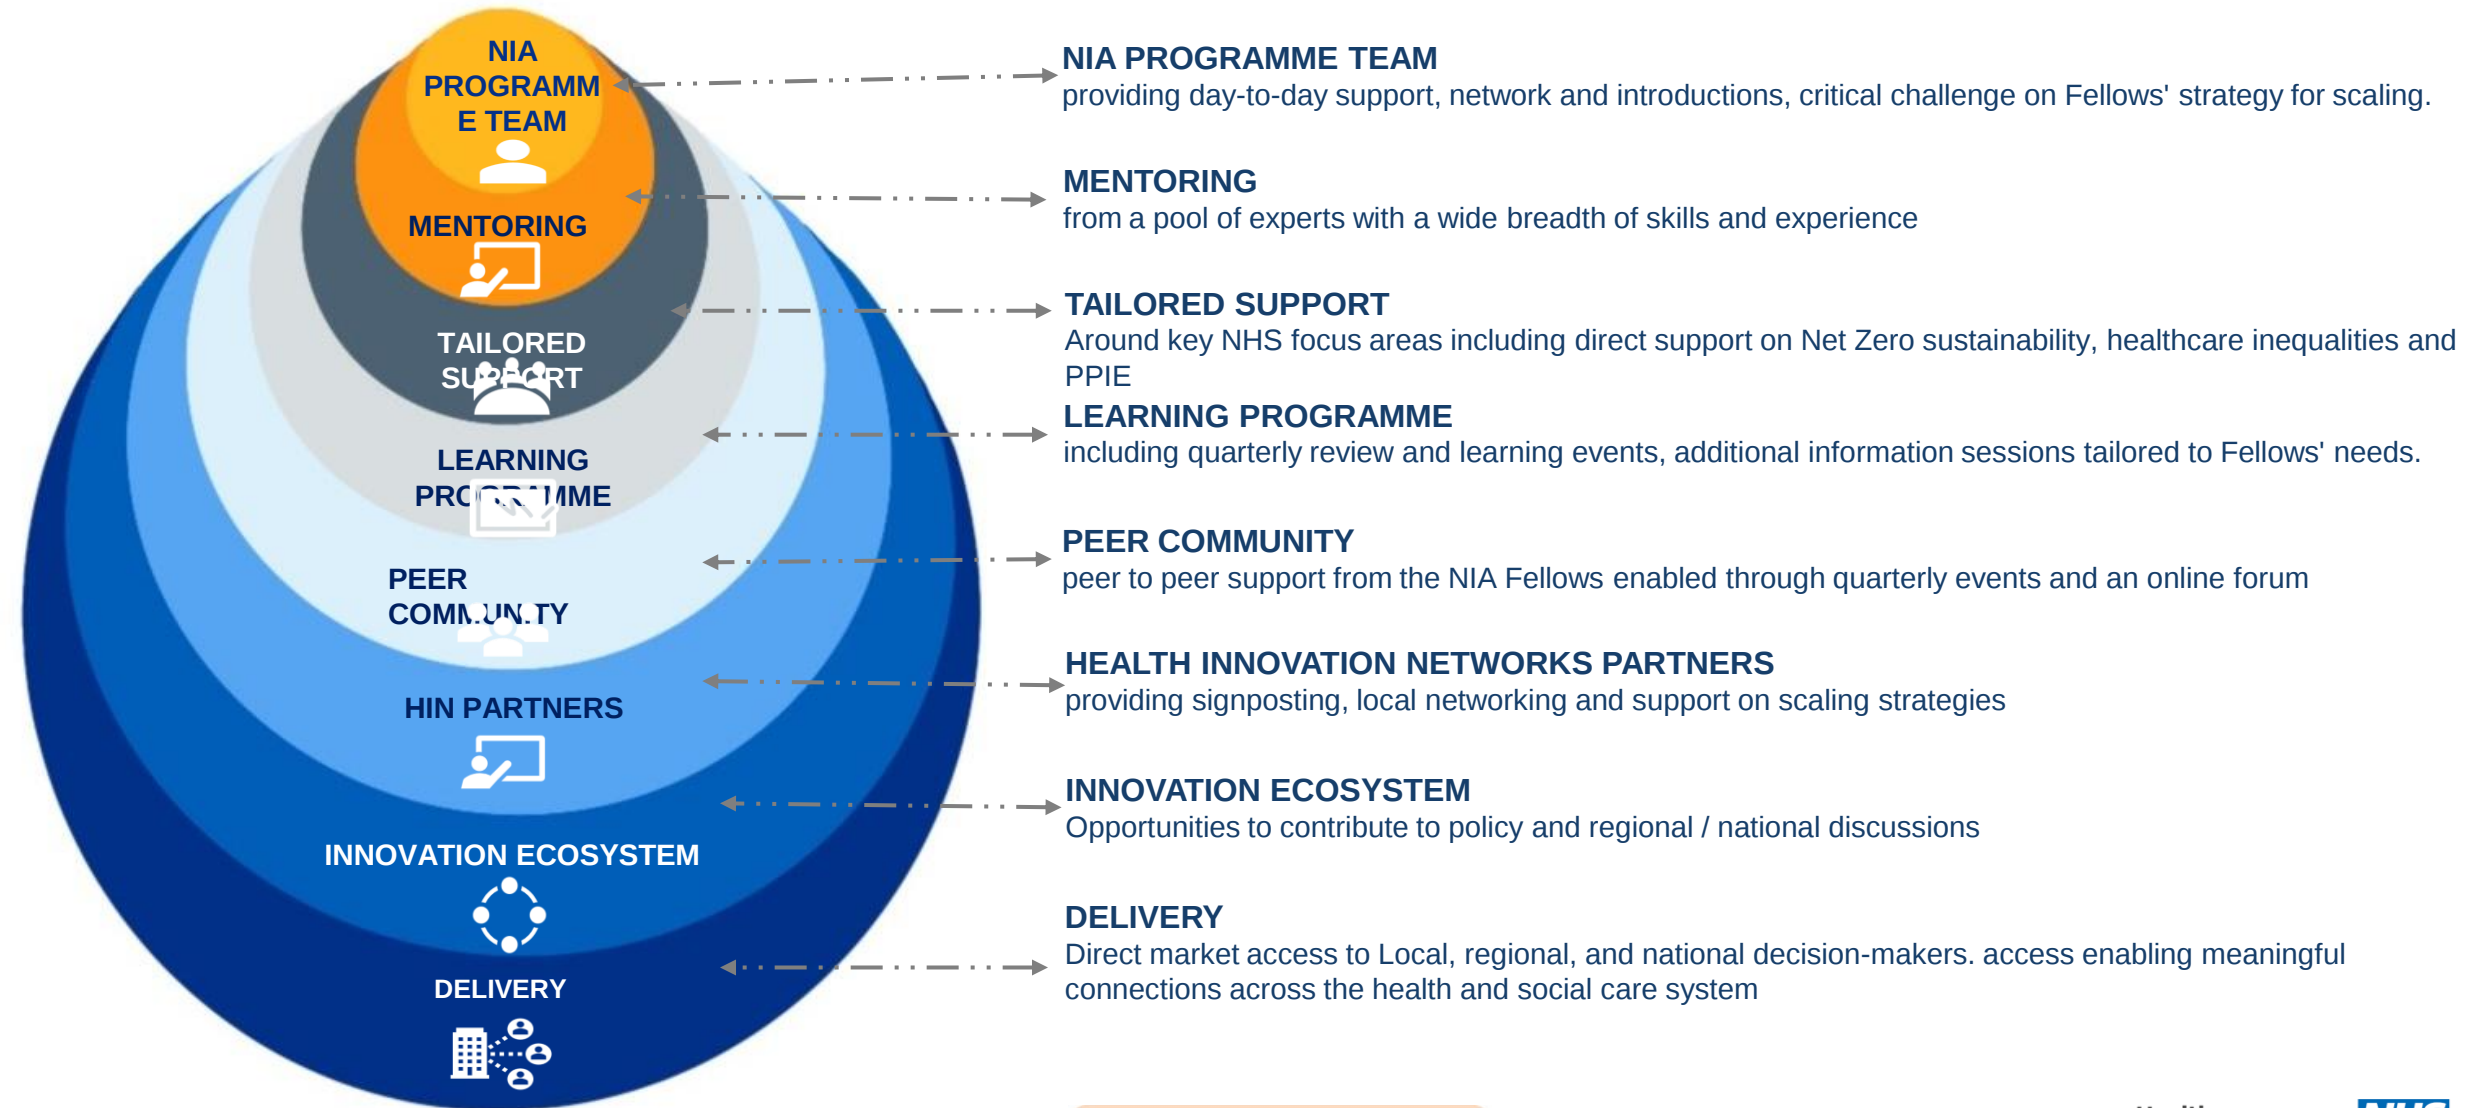

UK generated revenue

The NHS Innovation Accelerator (NIA) supports exceptional individuals to scale promising innovations across England's NHS for greater patient and staff benefit

We run a 3-year fellowship programme - Longevity of support matters

- **Access** for all levels of the NHS and Innovation ecosystem
- **Learn** from system leaders, policy makers, and industry experts
- **Connect** directly with commissioners, policy makers, and system influencers

What support do fellows receive?

Key Challenges

- Funding and Resource Limits
- Cultural Resistance to Change
- Structural changes
- No clear pathway
- Regulatory and Compliance Hurdles
- Legacy System Integration

Health
Innovation
Network

Local change, national impact

Social Care

The future could be bright?

- 10 Year health plan
 - Rules based pathway
 - NHS Innovator passport
- New IP guidance
- Value Based procurement
- Structural changes
- Regulatory and Compliance
- Legacy System Integration

But what can you do?

- Listen
- Value based procurement
- Lead by example
- Educate and upskill
