Developing NHS Innovation Delivering adoption and why it is important

David Lawson

Director of Medical Technology & Innovation

November 2025

Delivering Adoption

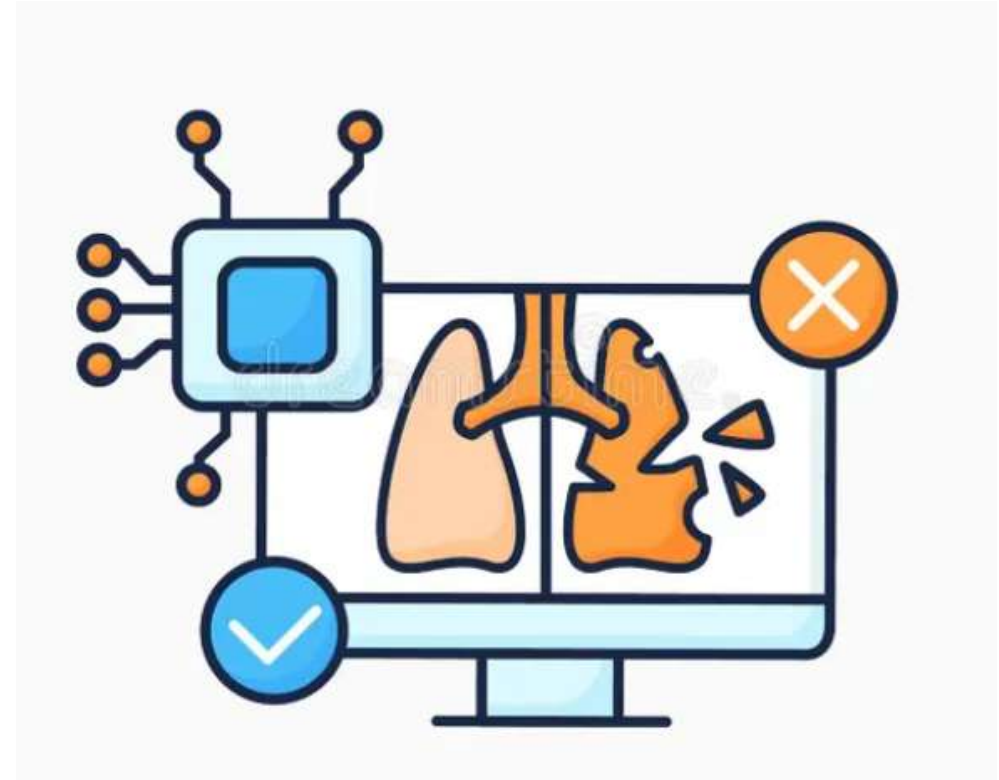

Rules Based Pathway

Value Based Procurement

Product Comparison & Passporting

Rules Based Pathway

Using funding mandates to rapidly scale the most game-changing, transformative technology

Value Based Procurement

New guidance fills a key gap with no standard methodology in place on how MedTech should be assessed creating huge variation in approach and making it harder for SMEs to respond to bidding opportunities.

Compass

A single trusted hub for NHS MedTech product evaluation evidence, enabling side-by-side product comparison and driving faster, fairer, value-based procurement
